PRINCIPAL’S PERSPECTIVE

Dear Members of St Paul’s School Community

Prayers for Kellie McElligott

Every Monday morning during October, the month of the Rosary, the children from Years 1-6 are praying a decade of the Joyful Mysteries for Mrs Kellie McElligott, who is ill. For the last few weeks all classes from Kindy to Year 6 have been compiling a Spiritual Bouquet of prayers for Kellie. Some Spiritual Bouquet cards have been left at the front desk in reception for any parents who would like to pick one up and complete it with their families. Please return the cards to the office this Friday and we will put all the spiritual bouquets together and present them to Kellie next week. Today, more than 30 mothers joined the children at Mass to pray for Kellie in unison. The Pre Primary mothers are also inviting parents to join them in praying the Rosary for Kellie during school time. Kellie is a great believer in the power of prayer and this is a special way that we can offer her some comfort and support. Please keep Kellie in your thoughts and prayers.

National Water Week Celebrations

“Water is our most precious resource, and young people are vital to its preservation for future generations.”

For some years now, as part of our commitment to water sustainability, St Paul’s has been a member of the Waterwise Schools Program, which provides opportunities to develop skills, knowledge and values that promote behaviour in support of a sustainable environment.

In recent years we have put several processes into place to enable us to conserve water. One major initiative was the installation of water tanks around the school to catch the water from the roof gutters, which is then used to flush the primary and early childhood boys’ and girls’ toilets. We have also had water-saving taps installed around the school.

Miss Pangestu, our Waterwise School coordinator, has organised some interesting activities and competitions for the children to be involved in this month to focus on this topic. This Friday after lunch the classes from Year 1-6 are gathering in the Barbier Hall to share their learning and understanding about how we can be water wise in our everyday lives.

Professional Learning with Sacred Heart Primary School

This week our teachers met with their colleagues from Sacred Heart Primary Highgate to moderate student writing work samples. This collegial relationship is important to enable our teachers to network with other professionals in a similar context and setting. Feedback has been positive on these sessions and we hope to continue this relationship into 2017.

Joanna Noonan
PRINCIPAL
UPCOMING EVENTS

- Thursday 20th October Parent/Candidates Reconciliation Workshop 6.30pm Barbier Hall
- Monday 24th October Prayer Assembly 8.45am Year 5 Barbier Hall
- Tuesday 25th October Class Prayer 9.00am Year 4
- Thursday 27th October Mass 9.15am Year 6 (Yr4-6) Saint Simon Peter and Saint Jude

Confirmation
Photographs are available now in the school office for parents to peruse at your convenience if you wish to purchase any.

Reconciliation
Tonight we have the Parent/Candidate Workshop in the Barbier Hall at 6.30pm. Parents are reminded that you are expected to attend with your child.

We ask you to pray for all the children who are preparing to receive the Sacrament of Reconciliation. Please keep these dates in your diary:

- Thursday 20th October Parent/Candidates Reconciliation Workshop 6.30pm Barbier Hall
- Thursday 27th October Parent Reconciliation Meeting 6.30pm St Paul’s Church
- Thursday 17th November First Reconciliation Liturgy 6.30pm St Paul’s Church

Month of the Rosary
The month of October has always been dedicated to praying the Rosary. It is a good time to commit to praying the Rosary every day. The Rosary will bring great peace and holiness to our lives. There is no greater person than our mother Mary who can intercede for us through the power of prayer. The students will pray the Rosary during October at our Prayer Assemblies. All the children from Year 1-6 have received their own set of Rosary Beads that they will pray with during each of the Prayer Assemblies.

St Vincent de Paul Christmas Appeal 2016
In term four our social justice focus will be the St Vincent de Paul Christmas Appeal. St Vincent de Paul has provided us with a list of families as a guide to help students compile their hampers. This provides students with a particular focus on the number of families in our community that struggle throughout the year but especially during Christmas.

Over the next few weeks, your child will come home with suggested items for donation. We encourage you to discuss the true meaning of Christmas with your children and join us in offering an alternative to families who would otherwise go without.

It is important to remember that hampers must contain non-perishable food items that are in date and in good condition. Please do not include any chocolate items, as St Vincent de Paul does not have refrigeration facilities.

Below is a list of items that would be suitable for the Christmas Hampers:

Hamper suggestions:
Christmas pudding, Custard, Tinned fruit, Bonbons, Tea, Coffee, Milo, Long life milk, Sweet biscuits, Candy canes, Jelly, Jams, Long life juice, Christmas cake, Pancake mix, Cordial, Lollies and Vegemite.

Other goods to consider:
Couscous, Cereal, Dried fruit, Fruit mince pies, Savoury biscuits, Tinned vegetables, Confectionery, Muesli bars, Pasta and Pasta sauce.

Parish/ School Mass 6th November
On Sunday 6th November at 9.30am, we have our Parish/School Mass. This Mass will be combined and will include all the students in Years 1-6. Each class has been allocated role during the Mass. Our P&F Committee have kindly offered to organise morning tea after Mass. We do hope many families will make every effort to attend this Mass.

Mac Callisto
ASSISTANT PRINCIPAL
1:1 Macbook Program Update

In 2017 students in both Years 4 & 5 will be connecting their own Macbook Airs to the school’s wireless network, provided their devices meet minimum specifications. As a school we have formed a partnership with JB Education to provide parents with a choice regarding a supplier and educational pricing.

The specification guidelines outlined at the parent information evening ensure that the devices can be supported within the school network. This updated information can be accessed from our school website www.stpaulsmtl.wa.edu.au

Instructions for accessing the JB HI-FI online portal
2. Enter School Code - SPPS2017
3. Select “Year 4/5 parent funded program”
4. Choose a pick up option
5. Select device – Macbook Air 11 inch 128G is the only option (Please note that Apple Care for Mac is provided within the cost and is forced bundled. This ensures onsite service for 3 years and is a much cheaper option than purchasing separately)
6. Select optional insurance if required
7. Select optional accessories (bag or case) if required
8. Enter personal details
9. Review order
10. Purchase and pick up as specified

Please note that this service is optional and parents may choose to purchase their child’s Macbook Air through other means.

Please contact Mr Yock on yock.jesse@stpaulsmtl.wa.edu.au should you have any further questions.
Sustainability at St Paul’s

The Year 6 students at St Paul’s got their green thumbs out this week as they ventured over to the raised garden beds in the Early Childhood Centre. Crops of cucumbers, corn, blueberries, celery, beet-root and cherry tomatoes were fed, watered, mulched and labelled. We look forward to creating a sustainable veggie garden here at St Paul’s. With the Kindy and Pre-Primary students taking care of the watering duties, our crop is in good hands!

Jesse Yock
Assistant Principal
St Paul’s My Kitchen Rules Challenge

Students in Year 6 have been studying procedural texts as part of our writing unit this term. As part of this unit each student will produce a recipe for a favourite dish.

Students must use their recipe (procedural text) to make their dish, filming or taking photos of each step. Students will firstly be graded on the quality of their procedural text and video (by the teacher) and then also on the quality of their food (by their peers).

We plan to create a St Paul’s MKR e-cook book that would serve as a fantastic Christmas present for all those avid chefs out there!

We look forward to trying out each other’s dishes next Monday 24 October.

Chef Yock

PRE KINDY
The last term before our students move onto kindergarten! This term we will be exploring different forms of transport. We will sort, count and experiment with materials to create transport constructions and art pieces. Students will continue to practise communicating and working together in small groups to develop their social skills, such as sharing and turn taking. They will also work on developing fine motor and gross motor skills to build strength and control, preparing them for Kindergarten next year. Towards the end of the term we will spend time learning the true meaning of Christmas through the Nativity story. We will create our own Nativity scenes and Christmas decorations to treasure for many years to come!

Mrs Sims

KINDY
In Religion we will discover the environment and treat it with respect. We will prepare students for Christmas through our Advent activities.

Numeracy this term will focus on reading, writing and saying whole numbers, using them to say how many things there are. We will continue to explore language such as on top, over, next to, in front, understanding the position of objects. We will learn one to one correspondence when counting collections (touching each item exactly once), make sets of up to 5 objects and learn to subitise small collections at a glance (1 - 2 items)

In English through the Fairy Tale theme, we will share, illustrate and re-enact traditional tales. We will use reading strategies through illustration and print to predict and construct meaning. We will participate in play involving sound patterns, vocabulary and language through song, poems, and rhymes. Strategies used within writing will include recording information for specific purpose, including drawing and telling a scribe what to write. Other strategies in the writing process will include copying scribed text and environment print. We will also use strategies for processing and organising information for a specific purpose, including sequencing pictures and labels. Letter names and letters sounds will continue to be reviewed.

Our focus in Health/Science this term will be exploring healthy choices with foods and the children will be encouraged to continue good eating habits during morning tea and lunch at school. We will begin to think critically about fair and unfair behaviour and also make choices and problem-solve to meet our needs. In ‘Physical Sciences’ we will use our senses to investigate and explore the environment. We will consider how the way objects move, including living things, depends on a variety of factors, including their size and shape.

Miss Callisto

PRE PRIMARY
Term 4 is going to be a very busy term. We have commenced with the theme of Spring. In this theme we look at what is meant by Spring, insects, the observation of silkworms and the life cycles of different insects, especially the silkworm moth and the butterfly. This is followed by Fairy Tales, a very special genre that is a lot of fun. We will be exploring many different Fairy Tales to examine how they begin, characters, setting, problems, solutions and how they end. Our Numeracy and Literacy is woven throughout the theme.

Our Religion Themes are ‘God Created Everything’ and ‘Advent’.

This term Pre Primary will visit “Big School”. This is to prepare the children with routines and later in the term there will be an orientation to Year One.

We are looking forward to many “FUN FILLED” activities in our last term as Pre Primary students.

Mrs Mason
CLASS NEWS

YEAR 1

Week one has flown by so quickly and the year 1 class has been so busy. We had our first session of Edudance, which was thoroughly enjoyed by all the students. It really is amazing how much the children engage in yet another area. The students will showcase their dance at the end of year Christmas concert.

This term the ‘Wonderful Ones’ will be learning about the author, Julia Donaldson. The students will research facts about her and discover all the songs and texts she has written over her career. We will look at specific titles, including but not limited to the Gruffalo, Stick Man and What the Ladybird Heard. The students will be able to show you what they have been learning at their assembly.

We have our very own green screen in year one. We will be looking at fun ways the students can share their learning and integrate technology into the curriculum. We will look at ways to add technology to a book report, making a poster with the green screen, and other creative projects. The green screen will encourage students to be creative and share with an audience. The students are also learning how to make an iMovie and use Comic Life this term.

Mrs Tierney

YEAR 2

G’Day everyone and welcome back! Our theme for this term is a BEAUT and it ties in nicely with our Geography unit. Ok you’ve guessed it.................our theme for this term is................AUSTRALIA! Expect to see some ACE art pieces based on Aboriginal art and iconic Australian landmarks around our classroom.

Our writing genres for this term are persuasive, narrative and poetry. We are especially excited to write persuasive texts to Ms Noonan because we are trying to persuade her to allow us to bring a pet Walrus to school!!!!!! Heck!! So, keep an eye out for our writing displays throughout the classroom because these little ‘beauties’ write the most entertaining pieces.

We will be collaborating with Year 1 this term for Technology and Enterprise. We have a BIG boat project to work on. Our boat has to float and carry weight. Not only do we create a boat, we also have to put time and effort into designing and evaluating our boats because that’s what great entrepreneurs do.

Other exciting activities coming up this term are Edu-Dance, the Bunnings incursion and Swimming.

This is just a small glimpse into what we are doing. We hope that this term is fun, full of laughter and that we make some EPIC memories together! I’m sure that it will be a RIPPER!

Miss Connolly

YEAR 3

The year seems to fly by when you are constantly doing something exciting! This term in particular will be a busy one for us as we prepare for the following events: First Reconciliation, Class Assembly, EduDance, Swimming lessons, End of Year Christmas Concert and more!

We have made a fantastic start to the term. In Geography, we are extending our knowledge of Australia’s major natural and man-made features by learning about Australia’s neighbouring countries in terms of their climate, people and customs. This learning opportunity will complement our report writing task in English, which will be based around our Geography topic. In Maths, we will be engaged in various hands on activities around capacity and mass. Last but not least, our Religion topic will primarily focus on preparing us to make our First Reconciliation. We have been preparing ourselves since the end of Term 3 by learning how to listen to the echoes of God’s voice calling us to love and to do good, and to avoid doing what is wrong.

To end the year on an exciting note, we have also introduced the Genius Hour project in Year 3. This is where we get to research a topic that interests us (one approved by Miss P) and share what we have learnt with our peers at the end of the year. We are following in the footsteps of people who are currently working for big companies such as Google. Our journey of becoming life-long learners continues...

Exciting times ahead!

Miss Pangestu
YEAR 4

The Year Four class are gearing up for a big finish to 2016 in Term Four. In Religion we have been learning about the Rosary for the month of October. We will be covering two units: ‘Whispers From Within’, that emphasises conscience and the strength we draw from Baptism, and ‘Together In Prayer’, that focuses on Advent and preparing for Christmas.

In Geography and Science we are focusing on sustainability with a particular emphasis on water as well as how Aboriginal peoples used resources sustainably.

In Health we will be learning about the elements of a healthy lifestyle in terms of diet, activity and mental health. We will also be doing Edudance this term.

At the end of last term we started working on robotics and we will continue this, as well as enhancing our coding skills.

During English we will focus on editing and reviewing skills when writing as well as researching and creating texts for sustainability and healthy lifestyles. We will also be examining poetry.

The focus in Maths is on geometry, statistics and chance.

Mr Fitzpatrick

YEAR 5

Countdown to becoming our School Leaders

Term 4 is an exciting time as the Year 5’s prepare to enter Year 6 and become our student leaders in 2017. This term, the students continue to develop their organisational and time management skills. They work collaboratively, as reflective learners, whilst increasing their skills of independence.

In Religious Education students are exploring the Sacrament of Penance and preparing for Christmas through our Advent / Christmas Unit of Work. In Mathematics they are engaging in financial literacy activities, learning about equivalency between fractions, decimals and percentages, solving number patterns and develop their graphing skills, with a focus on pie and travel graphs. In English, students are preparing oral presentations and essay writing. Students are learning about the impact of fire on Australian vegetation and the significance of fire damage on communities. They will explain what organisations and residence do to lessen the threat and minimise the harmful effects of bushfires. Students will learn about coding and robotics, along with designing, producing and evaluating their solar boats.

Mrs Flexman

YEAR 6

The final term of primary school is shaping up to be one to remember!

Our Dedicated Literacy Block writing component will focus around procedural texts, book reports, poetry and essay writing. Differentiated reading groups will continue across Years 5 and 6 this term with a focus on comprehension strategies.

Our Numeracy Dedicated blocks will concentrate on worded problems, area and perimeter, interpreting timetables, volume and capacity, percentage discount and a revision of the four number operations in preparation for high school.

In our Religious Education program we will cover the units, ‘Loving Like Jesus’ (Baptism) and ‘Come be Reconciled’ (Penance).

We look forward to our final leadership excursion of the year, where students will test their skills by taking on physical and mental challenges with their peers.

Our finale of the year will be the Year 6 Graduation Ceremony on Friday December 2.

What a fantastic term ahead in Year Six!

Mr Yock
SPORTS NEWS

Year 3 and 4 Interschool Team Games
The Interschool Team Games will be held next Friday 28 October from 12pm-2.30pm for the Year 3 and 4 students only at Abbott Park in Scarborough. This event is particularly enjoyable for the children as the rotational nature of the games means that they are constantly engaged. Of course parents are warmly welcomed to attend and show their support.

Diamond Netball Year 4 and 5
We have started our Spring Netball Competition at Matthew’s Netball Centre in Jolimont. The Diamond Netballers have had one win out of two games so far. We have seen some outstanding defence and attacking skills from our players. Congratulations on your first win girls! Keep up the great netball!

All Stars Netball Year 3
The Year 3 girls have enjoyed their first two games and are looking forward to putting all their hard training into practice. They have valiantly competed against teams who have played all winter. The girls first game was 1 to 11 and the score in their second game was 3 to 6. They are improving with each game that they play. Best of luck to the Year 3 girls next week!

Surfing Program
The MiniGrom Surfing Program started this week for the Year 5 and 6 students at Trigg Beach. We were taken through the skills and safety briefing before we hit the water with our boards. We had fabulous fun catching the white water and riding it into the shore. We are looking forward to the next few lessons where we will learn more about reading the surf and how to stand up on our boards.
Scitech Brainstorm Challenge Day
This week twelve Year 5 and 6 students went to SciTech for the annual Catholic Schools Brainstorm Challenge Day. Our students completed a series of tasks in Mathematics, Engineering, Coding, Astronomy, and Physics. Congratulations to our students who worked with persistence to come up with creative solutions.

Aussie Backyard Bird Count
Birdlife Australia is asking for the public to contribute to Aussie Backyard Bird Count as part of National Bird Week. There is lots of great information on their site. The link is below.

Earth Science Week
Last week was Earth Science Week. The websites below have some great information about this area.
http://www.geolsoc.org.uk/earthscienceweek

BOOK CLUB
Book club forms went home this week with your children. Please return your completed orders to the Library or Front Office by Tuesday 25th October. NO LATE ORDERS WILL BE ACCEPTED.
Thank you.
Shelley Antoni
LIBRARY

Keyed Up Music will be running piano, guitar, and band lessons again in Term 4 at St Paul’s. We run group lessons starting from $15.45 plus GST per lesson. To enrol, go to www.keyedupmusic.com.au/enrolment-form or ring Therese on 1300 366 243.
St Paul’s Netballers

Our St Paul’s netballers played so well on Tuesday, 18 October 2016. It was another beautiful day weather-wise, and a lot of fun was had by all. It was wonderful to see so many Mums, Dads and grandparents coming along to support our teams.

The Year 3 St Paul’s All Stars team played very competitively against the Newborough team in an exciting and close match. It was amazing to see the All Stars progression and skill development on display. Well done, All Stars. Your effort is amazing and your hard work is really starting to pay dividends.

Meanwhile, the Year 4/5 St Paul’s Diamonds played the Hollywood Hotshots in another exciting and close game on the hard courts. Our Diamonds were thrilled to win the game by two points; the final score was 8 – 6. The player of the game was Eve Chatzimichail and the player of the game for the Diamonds’ game last week was Clare Baroni. Well done, Eve, Clare, and the rest of the Diamonds.

All of our netballers just can’t wait until their next game on Tuesday, 25 October 2016.

Next P&F Meeting

The next P&F meeting will be held on Friday, 11 November at 9am in the Heritage Hall. We hope to see you there. You are all warmly welcomed.

BFF Forever: When friendships go sour

Emotional intelligence remains a work in progress throughout our lives. Dr Jenny Brockis offers parents tips to help children deal with emotional pain.

The four girls, or the ‘Four Musketeers’ as they called themselves, had been really close friends since Primary School. They did everything together. They shared the good times and the bad; they slept over at each other’s houses (frequently at ours), and seemed really happy. Then one day it all fell apart.

Noticing our daughter seemed unusually quiet I asked, “Is everything OK, you seem a little down?” Then it all came tumbling out.

One of the four had decided it was time to say goodbye. She didn’t want to be part of that friendship group anymore and had already made overtures to another group that she wanted to be best friends with instead.

But rather than explaining her decision, she chose to break all contact with her former best friends and spread rumours that they had been mean to her and it was they who had ousted her from the group. Bewildered and hurt the three girls attempted to rebut the accusations, to no avail. Their frustration led to resentment and anger along with grief that the happy band of four was no more.

Helping our kids deal with relationship issues is an important part of growing up; at any age. As adults we have our previous experience, logic, and reasoning which helps us to keep things in perspective, without resorting to catastrophising or experiencing those intense emotions that can be difficult to contain. That’s because the fully mature adult brain uses the pre-frontal cortex (PFC), the thinking part of our brain, to help regulate emotion and behaviour.

But a child does not attain full brain maturity until approximately the age of 24 when cognitive development is complete (boys can be a bit later!). This means our kids see their world through a predominantly emotional lens, they feel emotions more intensely than we do and they react more strongly to those emotions because they lack the regulatory mechanisms of a fully developed PFC.

Helping a child through a difficult time helps them develop a higher level of emotional intelligence (EQ), which helps them to handle those more complex interpersonal relationships as they get older.

It’s hard seeing your child in pain, whether emotional or physical, and it’s natural as a parent to want to fix it. What matters though is to not intervene with all guns blazing, as this can make matters worse and doesn’t teach our children how to work through a tough time and find their own solutions. It’s difficult too if we have a pre-existing relationship with the other parents involved, because the fallout from our children’s friendship issues impacts everyone.

Want more ideas to help you raise confident kids and resilient young people? Subscribe to Happy Kids newsletter, my full weekly email parenting guide at parentingideas.com.au. You’ll be so glad you did.
